### ENERGIA's work in energy access: Reaching the last mile through women's enterprises

- ENERGIA and its partners work on every level to expand energy access, ranging from off-grid "first mile" communities to national and global policy processes
- Our projects empower women energy entrepreneurs, introduce technical innovation, expand supply chains, and work with government and the private sector.
- The projects integrate business strategies, providing economic opportunities to those whose options are few.
- We also seek to advocate for these issues globally through relationships with government and the media.
