

Ensuring gender equality of co-benefits from renewable energy projects in the Lower Mekong Region

50
YEARS

39
COUNTRIES

SNV Netherlands Development Organisation

- International NGO working to end poverty
- 3 sectors – Agriculture; Renewable Energy; Water, Sanitation & Hygiene

ADB RETA 7914 – Harnessing Climate Change Mitigation Initiatives to Benefit Women

- 3 countries; 3 implementing agencies
- 3 groups representing women's concerns
- 3 institutional interventions
- 3 pilot projects; 3 technologies;
- 1 revolving fund
- Several knowledge products
- Many beneficiaries

The project focus & outcomes:

- **Climate Finance** mechanisms now have gender mandates
 - GHG reductions + **gender equitable co-benefit distribution**
- Gender mainstreaming by institutions into policies/strategies
 - **Gender Inclusive Plans**
 - **Gender Responsive Projects**
- **Pilot projects** are demonstration GR-CCM projects
- **Stakeholder engagement** process is supported
- **Knowledge** hub generates **products** to disseminate learnings

SNV ↔ IGES COLLABORATION

Institutional Interventions

	Lao PDR	Cambodia	Vietnam
PARTNER	<p>Department responsible for climate change in environment ministry</p> <p>MoNRE – DDMCC + LWU</p>	<p>Gender unit in line ministry responsible for agriculture, forestry & fisheries</p> <p>MAFF-GCWG</p>	<p>Provincial department of ministry responsible for climate change</p> <p>DoNRE – Dong Hoi + DHWU</p>
POLICY	<p>National Climate Change Action Plan</p>	<p>Gender Mainstreaming Policy & Strategic Framework in Agriculture</p>	<p>Provincial City Climate Change Action Plan</p>
RESULT	<p>Integrated gender-responsive steps and language</p>	<p>Introduced climate change mitigation section and gender-inclusive actions</p>	<p>Introduced climate change mitigation actions and gender-responsive approaches</p>

Lao PDR – DDMCC and Lao Women’s Union members work together to integrate gender responsiveness in the national Climate Change Action Plan.

Cambodia –GCWG members build capacity in climate change mitigation proposal development to support their work with women in agriculture.

Vietnam – URENCO, DoNRE, Dong Hoi city authorities, and the Women’s Union work on introducing climate change mitigation and gender mainstreaming into the city action plan.

Pilot Projects

	Lao PDR	Cambodia	Vietnam
GHG GOAL	Reduce GHG emissions from household cooking	Reduce GHG emissions from household cooking	Reduce GHG emissions from household farm activities
PROJECT TECHNOLOGY	Women-led Improved Cook Stove (ICS) production facilities	Women as sales agents for Advanced Clean Cook Stoves (ACCS)	Women-led Biogas Mason Enterprises (BMEs) build or install bio-digesters
CO-BENEFITS TO WOMEN	WEE++ (ICS producers)	WEE++ (ACCS agents)	WEE++ (Biogas masons)
	Save time, money; less drudgery; better nutrition;	Save time, money; better health; better nutrition; less drudgery...	Save money and time; build business; create income; better health; better nutrition;

Pilot Project impacts

Lao PDR	
GHG GOAL	Reduce GHG emissions from household cooking
PROJECT TECHNOLOGY	Women-led Improved Cook Stove (ICS) production facilities
CO-BENEFITS TO WOMEN	WEE++ (ICS producers) Save time, money; less drudgery; better nutrition;

ICS production gives me the chance to make my own income and I don't have to ask for money from the family.

This new ICS saves charcoal and boils water faster. I know which stove I will buy next time

Pilot Project impacts

Cambodia

GHG
GOAL

Reduce GHG emissions from household cooking

PROJECT
TECHNOLOGY

Women as sales agents for Advanced Clean Cook Stoves (ACCS)

CO-BENEFITS
TO WOMEN

WEE++ (ACCS agents)

Save time, money; better health; better nutrition; less drudgery...

I sold 24 stoves in two months, making around 192 USD. My husband appreciates my work and even helps me to do the household chores

Before, I had eyes irritation, and often visited the doctors ... Using this stove, my eyes getting better and I can save money and time....
