

# Green Banking

## Capacity Building on Green Energy and Climate Finance

*Corazon D. Conde, 5 June 2016, Manila*

[www.renac.de](http://www.renac.de)

# Renewables Academy (RENAC) AG

- RENAC is a Berlin-based training and capacity building specialist for renewable energy and energy efficiency
- More than 6,000 participants from over 145 countries
- Training courses, master degrees, capacity building services and consulting
- Large network of lecturers
- Independent, interdisciplinary and intercultural

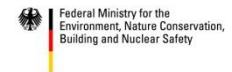

- Association of Development Financing Institutions in Asia and the Pacific (ADFIAP) based in Manila / Philippines
- Focal point of all development banks and other financial institutions engaged in the financing of development in the Asia-Pacific region
- 106 member-institutions in 39 countries

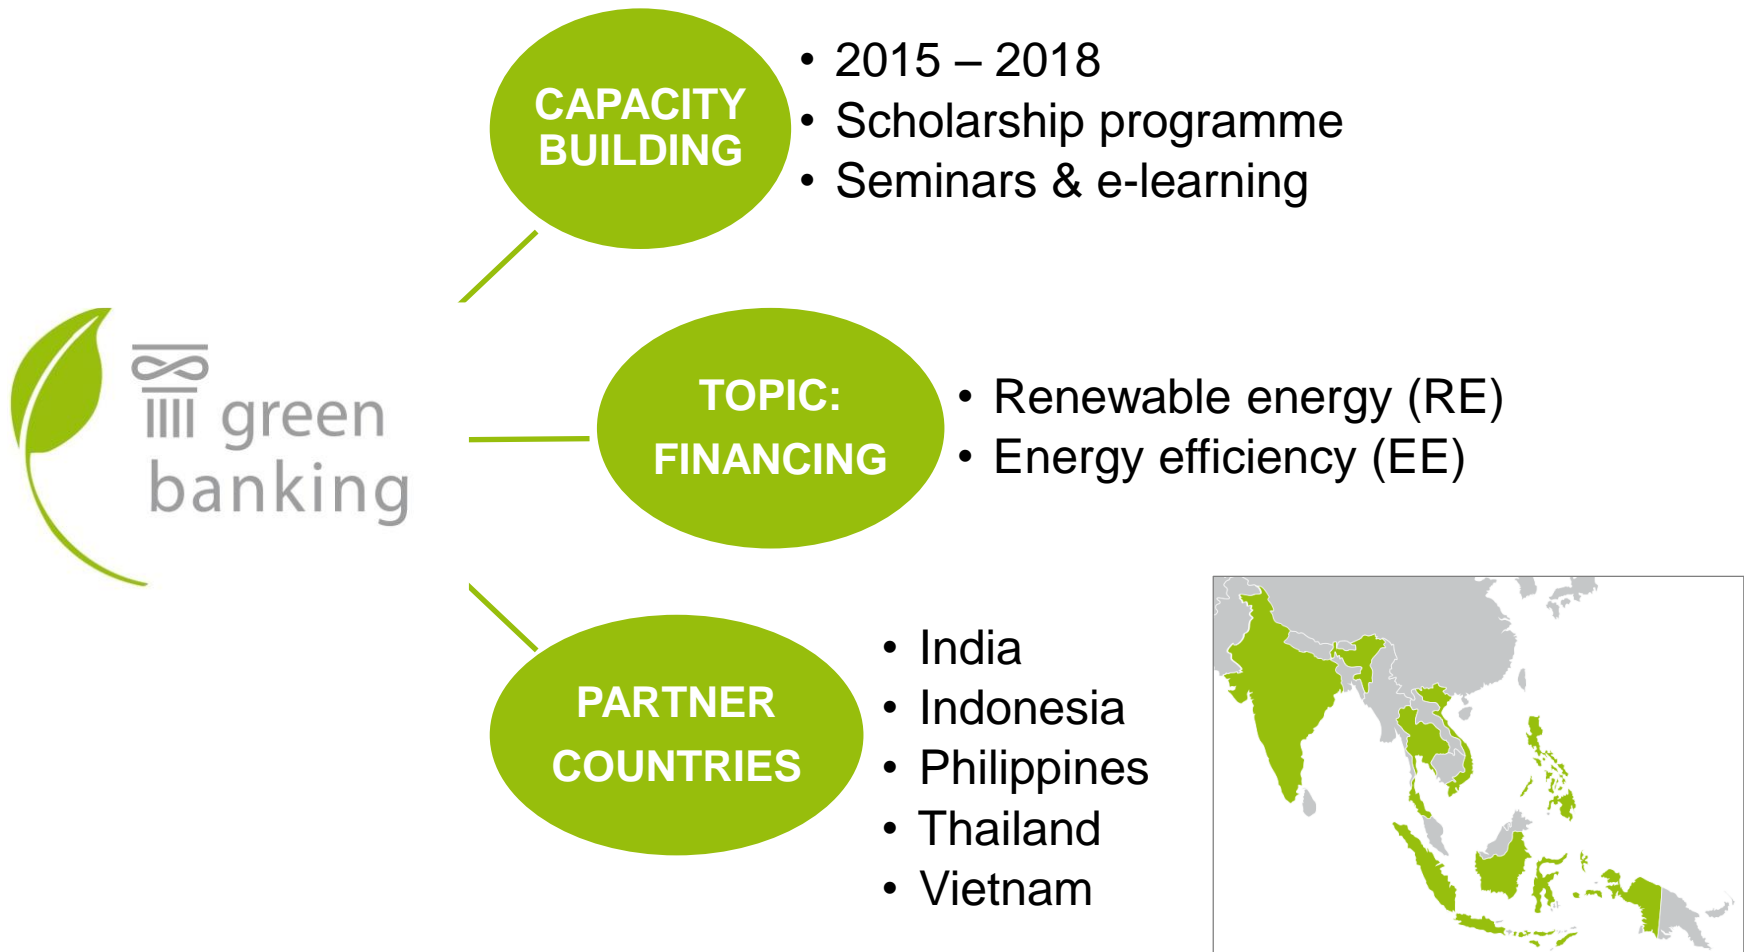

- The Green Banking project is funded by the German International Climate Initiative (IKI)
- with support of the German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB)

Supported by:

based on a decision of the German Bundestag

# What is Green Banking?

# Why Green Banking?

## Our objective:

- Increase the availability and use of financing instruments for RE and EE projects
- Increase willingness of financial institutions to get involved in RE and EE finance
- Facilitate accessibility to global climate finance options

## Your opportunity:

- Benefit from new business opportunities in the growing green markets of your country
- Exchange experiences with experts from Germany
- Contribute to climate change mitigation

# What does Green Banking offer?

Online trainings

Trainings in India, Indonesia,  
Philippines, Thailand and Vietnam

Delegation tours & B2B meetings in  
Germany

“Green Finance Specialist” degree

Train-the-Trainer Seminars at  
RENAC's Training Centre in Berlin

# What does Green Banking offer?

## Online trainings

- Professional 2-months Online Training at your own speed, whenever you have time, wherever you are
- General introduction into green finance topics
- Two learning paths are available:
  - Renewable energy path: Intro to RE finance and technologies, standard contracts in RE projects, bankability of RE projects, access to international climate finance.
  - Energy efficiency path: Intro to EE finance and technologies, appraisal of EE projects, energy audits and ESCOs, access to international climate finance.
  - Both learning paths are complemented with political and market frameworks, case studies from target countries.

# What does Green Banking offer?

## Blended Learning: Combination of Online Training and F2F Seminar

- Combination of 8-weeks Online Training with 3-days Face-to-face seminar in partner country
- The F2F seminar is complementary to the Online Training and is a country specific in-depth training on technical and financial topics related to finance of RE and EE projects
- Introduction of an Excel tool for project assessment and financial structuring
- After the Blended Learning course:
  - Participants may receive consultancy from the trainers on the approach of technical and financial evaluation of real case financing applications

## What does Green Banking offer?

### Delegation tours & B2B meetings in Germany

- Profound opportunities to discuss and exchange experiences with German financing experts in renewable energy and energy efficiency
- Workshops and trainings at RENAC's premises
- Site visits of outstanding RE and EE projects
- B2B meetings with financial institutions involved in RE and EE financing in Berlin and Frankfurt
- Duration: 1 week

## What does Green Banking offer?

### “Green Finance Specialist” degree: Combination of Online Training and F2F Seminar

- Combination of 20-weeks Online Training with 3-days Face-to-face seminar in partner country
- Development and establishment of a new and valid training degree, that is in the process of accreditation from the Finance Accreditation Agency (FAA), Malaysia.
- In-depth knowledge on green finance topics
- Main topics:
  - Fundamentals of the RE and EE technologies
  - Political and legal market frameworks
  - Project financing and project appraisal of RE and EE projects including credit application, financial modelling and project evaluation
  - International climate finance options
  - RE projects in the portfolio context

## What does Green Banking offer?

### Train-the-Trainer Seminars at RENAC's Training Center in Berlin

- For professionals with experience in green energy finance who wish to become a trainer in this field
- In-depth training on technical, financial and didactical topics
- Trainers will be able to contribute to the *Green Finance Specialist* seminars in their country or region
- Duration: 1 week
