

Tetsushi Sonobe is the Dean and CEO of the Asian Development Bank Institute (ADBI), the Tokyo-based think tank of the Asian Development Bank that promotes the realization of a prosperous, inclusive, resilient, and sustainable Asia and the Pacific through policy research and capacity building.

Born in 1960 in Tokyo, Dean Sonobe obtained his PhD in economics from Yale University and BA in economics from the University of Tokyo. His research interests include the empirics of economic development, particularly industrial development processes and poverty reduction in developing countries.

Dean Sonobe has more than 20 years' experience analyzing the role of human capital, institutions, and management in industrial development in Asia and other regions. Notably, he and prominent agricultural and development economist, Keijiro Otsuka, applied their unique enterprise survey approach to a series of development process case studies in different industries in East Asia. They expanded the scope of their industry study to cover South Asia, Africa, and Central America and conducted randomized controlled trials of management training programs for business owners and managers.

Before joining ADBI in April 2020, Dean Sonobe served for six years as a vice president of the National Graduate Institute for Policy Studies (GRIPS) in Tokyo. He also previously served as a professor of economics at Tokyo Metropolitan University and GRIPS. Dean Sonobe is a recipient of the Nikkei Book Publication Prize and the Masayoshi Ohira Memorial Prize, and a founding board member of the Japanese Association for Development Economics.

Dina Azhgaliyeva joined ADBI as a Research Fellow in July 2019. Previously, she worked as a Research Fellow in the energy economics division of the Energy Studies Institute, National University of Singapore. She was also a Research Fellow at the Henley Business School, University of Reading where she was involved in empirical analysis of the impact of local content policy on extractive industries.

From 2012-2015, she was an Economics Teaching Fellow at University College London. She also worked as a leading and chief specialist for the Tax Committee at the Ministry of Finance of Kazakhstan for five years.

She holds a PhD, Master's, and Graduate Diploma in economics, all from the University of Essex. She also holds an internationally recognized teaching qualification from the Fellow of Higher Education Academy and a qualification in research career management from the Staff Educational and Development Association.

Cecilia Tam heads up the OECD Clean Energy Finance and Investment Mobilisation Programme. Prior to taking up this role, she held a number of leadership positions at the IEA including Acting Head of the Energy Technology Policy Division, Head of the Energy Demand Technology Unit and Special Advisor to the Executive Director since first joining the agency in 2006. Cecilia was also responsible for the development of the IEA's Energy Technology Roadmaps Programme and is an expert in clean energy finance, energy efficiency, energy technology deployment and innovation.

Between 2015 and 2017, Cecilia was Special Advisor at the Asia Pacific Energy Research Centre (APERC) in Tokyo where she was responsible for managing APERC's research programme and leading the development of the APEC Energy Demand and Supply Outlook.

Cecilia began her career as a Financial Analyst in Chile before moving to Dresdner Kleinwort Benson. In her role as a Senior Equity Research Analyst covering Latin American utilities, she has worked on numerous privatisations and equity offerings.

Ulrich Volz is Director of the SOAS Centre for Sustainable Finance and a Reader in Economics at SOAS University of London. He is also a Senior Research Fellow at the German Development Institute and Honorary Professor of Economics at the University of Leipzig. At SOAS, he previously served as Head of the Department of Economics and Member of the University's Executive Board. Ulrich is Chairman of the Japan Economy Network and Co-editor-in-chief of the Asia Europe Journal. He is a Director of the Global Research Alliance for Sustainable Finance (GRASFI) and serves on the Advisory Council of the Asian Development Bank Institute and the Board of the Sustainable Financial Data Initiative (Sufinda). Ulrich was part of the UN Inquiry into the Design of a Sustainable Financial System and has acted as an advisor to several

governments, central banks, international organisations and development agencies on matters of sustainable finance and development.

Miho Kurosaki leads analysis and research on energy industry in Japan and Korea. The team covers topics including impact of the energy market liberalization, new downstream business models and the future of electrified transport. She served as a committee member of climate change advisory panel for Japan Ministry of Foreign Affairs.

Prior to joining BNEF, she developed Bloomberg's Environmental, Social and Governance (ESG) analytics platform as Bloomberg's senior ESG analyst. She also worked for a London based environmental research firm as an analyst covering environmental risks in portfolio management.

Miho holds an MSc in Environmental Technology from Imperial College London and a BA in Economics from Keio University.

Tomas Kåberger is Executive Board Chairman of Renewable Energy Institute in Tokyo. In addition, he is affiliate professor of Industrial Energy Policy at Chalmers University of Technology in Göteborg, Sweden and Industrial Growth Executive at the Scandinavian office of InnoEnergy.

Senior advisor to GEIDCO in Beijing. He is appointed by the Swedish government as member of the Swedish Climate Policy Council and to the board of the power company Vattenfall. The Norwegian Government has appointed him to the board of the Research Council of Norway.

He is a member of the Royal Swedish Academy of Engineering Sciences and The Swedish Association of Energy Economists.

He has held leading positions in companies working with bio-, wind- and solar energy. In the 1990s he was a member of the government energy commission introducing competition in the Swedish electricity market. From 2008-2011 he was Director General of the Swedish Energy Agency.

Linda Arthur joined ADBI as a Senior Capacity Building and Training Specialist in June 2019. Her areas of specialization include comparative policy analysis, education policy reform, project evaluation, and portfolio management.

Prior to joining ADBI, she worked in the Asian Development Bank's South Asia, Central and West Asia, and Independent Evaluation departments as well as ADB's country offices in Afghanistan and Pakistan.

She holds a BA and MA from the University of Toronto, and a DPhil from the University of Oxford.
