Setting the Scene for Financing Inclusive Energy Transition

• ASIA Clean Energy Forum (ACEF 2023) is the premier annual event for knowledge sharing, forging partnerships, and building networks to accelerate the just clean energy transition.

• A rapidly transitioning energy sector from a fossil energy-based sector to a clean energy-based one.

• **Retooling of the current workforce** and deployment of a new set of trained workers, managers, and executives

• Companies with a **diverse workforce** perform better

• The clean energy transition opens tremendous opportunities for women
